

For Immediate Release

Attend a community workshop & help shape Surprise's General Plan 2040

Surprise, AZ (February 15, 2023) - The City of Surprise is asking for the community's input to help shape the City's future. Surprise is in the process of updating its General Plan 2040 – a guiding document that provides direction for the next decade, addressing items from land use and open space to transportation and services.

Public participation is critical to this process. We encourage our community members to join us at the upcoming General Plan 2040 Community Workshop to learn more about the City's existing land use and growth area plans.

Join us:

Wednesday, February 22, from 6-8 p.m. inside the Community Room at Surprise City Hall, 16000 N Civic Center Plz.

This will be an open house-style community workshop with existing land use and growth area informational boards, proposed community vision and values and summarized feedback from our residents from our previous outreach efforts. Attendees can share their input through a mapping activity, and kids can help with a drawing activity highlighting their favorite places in Surprise.

The new plan is projected to be complete and voted on by City Council in late 2023 and will be placed on the ballot for a citizen vote in August 2024.
